

Josh Horgen

Junior Software Developer

Portland, OR | 971-255-2075 | Joshua.horgen@gmail.com

Summary

I am a software developer who took self-taught & college programming experience to the next level by attending Epicodus, a full-time, year-long vocational school. I developed a passion for technology and business at an early age and have continued to pursue my passions ever since.

I'm seeking an opportunity to continue improving my software development skills and make meaningful contributions to your team.

Work experience

Software Developer 12/2021 - 3/2022

A Family For Every Child

- Adapted to new technologies quickly, such as Salesforce.
- Collaborated with a team lead while working remotely.
- Learned, to a degree, how a non-profit organization functions.
- Created multiple test projects using the WAMP stack, furthering my Php skills.

Software Developer 12/2019 - 2/2020

Outer Rim Bicycles

- Worked closely with my client in order to suit their needs.
- Developed a full scale e-commerce website & content management system using front end, back end, and API technologies.
- Helped my client become familiar with the software for everyday use.
- Learned to adapt to new technologies that the application required.
- Configured a custom domain and added SSL certification.

Software Developer 10/2019 - 12/2019

Advertising Solutions

- Interned at Advertising Solutions and quickly learned to participate in their work.
- Became proficient with bootstrap.
- Used my Javascript and jQuery skills to create modern visual effects.
- Learned basic PHP & practiced with frameworks such as Laravel in my free time.
- Worked with existing clients & helped the company complete unfinished projects.

Sales Coordinator 5/2018 - Present

Horgen Auto Engineering LLC, Freelance.

- Developed a sales routine involving product organization, advertisement, and sales.
- Set sales goals in order to meet my desired income and met those goals consistently.
- Assisted clients by filling out paperwork and handling documentation.
- Became more self-reliant by developing entrepreneurial skills.

Courier 10/2016 - Present

Grubhub - Instacart

- Picked up and delivered items to customers as quickly as possible.

Skills

- React
- Redux
- Ruby on Rails
- Php
- Javascript
- Ruby
- Webpack
- Git
- HTML
- CSS
- Bootstrap

Projects

Here are a few projects I have made using Ruby on Rails, Javascript, React, and more.

All of my projects & code can be found at:

- <https://github.com/Jhorgen>.

My first production application and by far the most involved project I've completed. I was contracted to develop this application for Outer Rim Bicycles.

Uses React, Redux, Ruby on Rails, Stripe, and much more.

- [Github - Outer Rim Bike Shop](#)
- [Live application](#)

React + Ruby on Rails application that allows a user to search for a vehicle & view theoretical performance statistics.

- [Github - Turbo performance calculator](#)
- [Live application](#)

Used routing and implemented full scale CRUD functionality.

- [Github - Products & reviews](#)

Group project that uses React to make API calls to a Rails API.

- [Github - Interesting places in](#)

- Created a schedule that focused on specific times each day.
- Organized tax information, receipts, and deductions.
- Improved workflow by running multiple delivery & driver apps.

Portland

Volunteer tracker / project organizer
developed with vanilla Ruby + Sinatra.

- [Github - Volunteer tracker](#)
- [Live application](#)

Customer service & Shoe dept.

4/2013 - 10/2015

Kohl's

- Frequently worked with customers in a one-on-one setting.
- Solved a variety of problems using communication skills.
- Learned how to handle stressful situations in a calm and controlled manner.

Education

Epicodus

5/2019 - 11/2019

Epicodus is a software development vocational school renowned for teaching technical skills with an in-person, pair-programming curriculum.

Skills acquired: Javascript, React, Ruby, Ruby on Rails, Webpack, Github, Unix commands, and more.

Portland Community College

01/2018 - Present

Emphasis in computer science and business.
